

Established in 2004, **Premier Tooling** specialises in the sourcing, project management and supply of precision moulds and maintenance parts to a diverse European customer base. The production of our sourced tooling is project managed by our local team who work closely with the tool shops that we have rigorously selected in several regions across Eastern China.

Our main service lines are:

- Progression and transfer stamping tools
- Plastic injection moulding tools
- Aluminium pressure casting dies
- Maintenance parts

Quality Assurance

Premier Tooling works in partnership with a highly skilled Chinese supply base that are all accredited to ISO/QS 9001 and ISO/TS16949.
